THE GOLD STANDARD IN AFTER HOURS CARE

When you or a loved one is unwell in the after hours, and your regular GP is closed, you know you can rely on National Home Doctor Service.

Imagine...

- It's Saturday afternoon and your child has injured themselves at their soccer match.
- It's Monday evening and your entire household has come down with gastro.
- It's Friday night, you feel rotten and your GP is closed.

National Home Doctor Service solves these and many more dilemmas with bulk billed, after hours, doctor home visits. And remember, as an **AFTER HOURS PLUS** member you get even more benefits, including:

URGENT MEDICATIONS SUPPLIED AT NO COST

Start treatment immediately without the hassle of trying to find a pharmacy to get your prescription filled. As an **AFTER HOURS PLUS** member, if your home doctor deems it clinically appropriate, they will give you a full course of your medication* straight away - at no charge!

Imagine the peace of mind knowing you won't need to bundle a sick child into the car at night to try and find a pharmacy that's open. Or, if you don't drive, and find it hard to get out of the house, you won't have to worry about getting a prescription filled. You'll be able to start your treatment straight away without leaving the house.

With **AFTER HOURS PLUS**, you have all the benefits of National Home Doctor Service, plus a full course of commonly prescribed medications* supplied on the spot - at no cost to you!

DON'T WAIT – MAKE THE CALL ON 13SICK

Bulk billed. In home. After hours.

*When deemed appropriate treatment by the doctor, a full course of medications (i.e. antibiotics and Salbutamol/Ventolin) to treat common, episodic conditions will be supplied at no cost to After Hours Plus members. For urgent medications (i.e. Famciclovir and Oseltamivir) doctors will provide sufficient doses to allow treatment to begin. Medications for chronic illnesses (i.e. blood pressure medication) are not included. See table opposite, and visit our website for Terms and Conditions.

Episodic Medication	Illnesses or conditions treated
Cephalexin 500mg capsules	Skin, throat and urinary tract infections
Cephalexin 250mg/5ml powder for oral suspension	Skin, throat and urinary tract infections
Amoxicillin 500mg capsules	Respiratory infections
Amoxicillin 250mg/5ml powder for oral suspension	Respiratory infections
Amoxicillin 875mg/clavulanic acid 125mg tablets	Respiratory, skin and urinary tract infections
Roxithromycin 150mg tablets	Respiratory and throat infections
Roxithromycin Dispersible 50mg tablets	Respiratory and throat infections
Doxycycline 100mg capsules	Respiratory infections, Acute rhinosinusitis,
Phenoxymethylpenicillin 500mg capsules	Acute tonsillitis and skin infections
Loperamide Hydrochloride 2mg capsules	Gastroenteritis and other conditions with diarrhoea as a symptom
Salbutamol inhaler	Asthma, Bronchitis, Chronic Airways Disease (e.g. Emphysema)
Prednisolone 25mg tablets	Asthma, Chronic Airways Disease (e.g. Emphysema), Certain inflammatory conditions
Prednisolone 5mg/ml oral liquid	Asthma, Chronic Airways Disease (e.g. Emphysema), Certain inflammatory conditions
Framycetin sulfate 0.5% ear/eye drops	Conjunctivitis
Trimethoprim 300mg tablets	Urinary tract infections
Gastrolyte sachets	Gastroenteritis, dehydration
Cold & Flu Relief Day & Night PE tablets	Cold and flu viruses

Urgent Medications	Illnesses or conditions treated
Famciclovir 250mg tablets	Shingles
Oseltamivir 75mg tablets	Influenza

EPISODIC MEDICATIONS: Where clinically appropriate, these medications are prescribed by the doctor for treating illnesses that come and go, as opposed to chronic illnesses. Illnesses treated include chest infections, asthma, gastro and urinary tract infections.

URGENT MEDICATIONS: Where clinically appropriate, doctors will provide sufficient doses of urgent medications so as to allow treatment to commence, whilst providing the Member reasonable time to fill a prescription at a pharmacy.

REMEMBER, WHEN YOU OR A FAMILY MEMBER IS UNWELL AND YOUR GP IS CLOSED – DON'T WAIT.
